

Grafiksammlung: Möbel

Möbel zeichnen

Liebe Zeichenfreunde,

zum Neuen Jahr möchten wir Ihnen einen guten Start wünschen!

Es ist Winter, vielleicht finden Sie etwas Zeit um an Ihren Zeichentechniken zu feilen...

Beim Betrachten von Gartenentwürfen sehe ich oft, dass die Möbel fehlen oder unzureichend in Szene gesetzt werden.

Dabei wird durch die Platzierung von Möbeln viel erreicht:

Die Nutzung des Außenraumes wird suggeriert, dadurch werden beim Kunden Emotionen geweckt.

Es kann überprüft werden, ob der Raum um die Möbellierung groß genug ist.

Es gibt auch Seminare zum Thema:

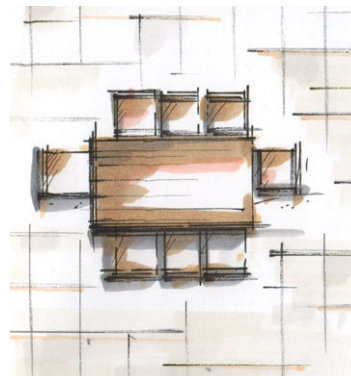

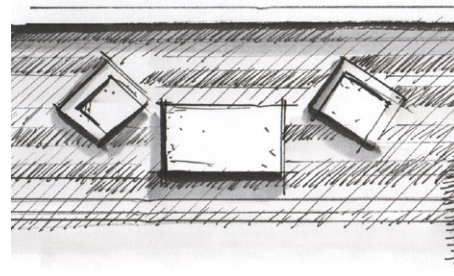

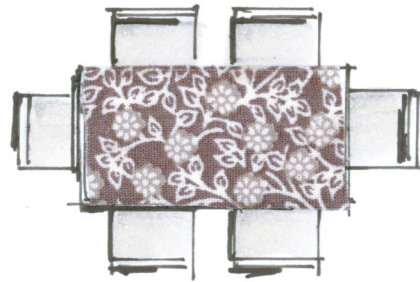

Modul 1 Grundriss und Ansicht

Do.08.01.2015 bis So.11.01.2015 und

Di.10.02.2015 bis Fr.13.02.2015

Ich wünsche Ihnen viel Spaß beim Entwerfen und Zeichnen!

Herzliche Grüße,
Daniel Nies, Januar 2015

Beispiel

In diesem schnellen Stegreifentwurf von Susanne Dotzauer wurde die Möblierung in der Planung berücksichtigt und überzeugend dargestellt.

Durch die unterschiedlichen Möbel werden Nutzungszonen definiert.
